Corsica

OFF THE BEATEN TRACK

Marana Golo is a geographical area of the eastern plain of Corsica. It overlooks the Tyrrhenian Sea and has a variety of different territories as assets.

Facing the Tuscan archipelago, from the mouth of the Golo River to the gates of the city of Bastia, the Lido de la Marana borders the Natural Reserve of the Biguglia Pond and is composed of a set of micro-regions.

Marana-Golo offers between the sea and the mountains exceptional landscapes, historical sites, and picturesque villages with an authentic character. Nestled in the heart of the foothills, the latter are enveloped by the scents of the maquis made up of strawberry trees and heather.

**Come and experience an unforgettable trip...
Marana Golo is waiting for you !**

A PLACE TO RELAX

Sea

Deep your feet in the water...

Facing the Tuscan archipelago, the beauty of the **golden-sand beaches** of Le Lido de la Marana extends over **16 km** (~ 9 mi). This area is considered the « **green lung** » of the nearby town of Bastia.

This is the ideal place to go for a walk and offers a wide range of activities, sports, beach games and restaurants. By the way, all these elements contribute to the success of many local seaside resorts.

A PLACE OF DISCOVERY

Nature

Relax in the open air...

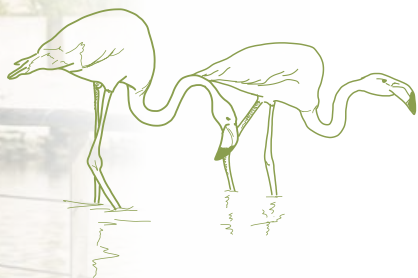

Between the sea and the mountains, Marana Golo has a diversity of landscapes which offer numerous outdoor activities that you can practice alone, with your partner, or with your family. Activities such as horse riding, climbing, swimming in the river, white water sports, cycling, golfing, and hiking.

Come and discover the natural and heritage resources of our region.

The Intercommunal Tourist Office Marana Golo invites you to find our **GPS tours and walking loops** on the mobile website : **maranagolo-tourisme.com**

There are plenty of outstanding natural sites, including the **Biguglia Pond**, bordered by a 16 km (~ 9 mi) long lagoon shoreline, named the **Lido de la Marana**.

The pond of Biguglia was declared a nature reserve in 1994 and is home to more than **120 species of birds** and about **480 plant species**. Some of them are rare and endangered, such as the seashore mallow or the marsh fern.

Various areas of the reserve have been developed to welcome the public, particularly the footpaths of **Tombulu Biancu** • **GPS : 42.64119, 9.46038** as well as the observatory of **the San Damiano peninsula** • **GPS : 42.614227, 9.479428**

AN AUTHENTIC PLACE

Discovering our villages

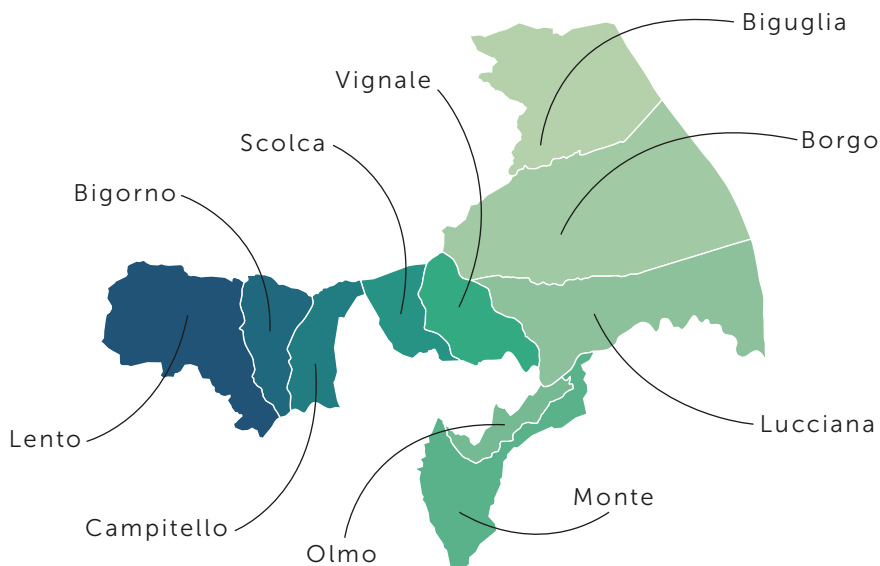

One destination, ten picturesque Corsican villages...

Marana-Golo is composed of a fertile plain as well as old villages nestled in the hills, which makes it a must-see during a stay in Corsica!

Within this Mediterranean area, Marana-Golo offers fabulous sunrises reflecting over its fertile land, which is steeped in history, and tradition. It is precisely these historical, cultural, and economic values shared on its territory that make the region so special.

**Experience an amazing trip and
discover the natural and authentic
treasures of our region.**

AN AUTHENTIC PLACE

BIGUGLIA

VINCENTELLO D'ISTRIA, who was appointed Count of Corsica in 1407, made Biguglia the capital of the island. At the time, the city was considered a stronghold thanks to its port and the Chiurlino pond. Indeed, Biguglia played a key role in the History of Corsica during the Middle Ages.

MUST-SEE

Parish Church of Saint-André - Village of Biguglia

This church dates from the 16th century and has three altars. The major one is dedicated to Sant'Andria, the other two to the Virgin and San Roccu. The old exposed stones give this church a very particular character and a touch of charm. In 1994, major restoration work was undertaken. The frescoes, the furniture, the statues, and ancient objects of confraternities were renovated. Moreover, two new stained-glass windows were installed and now illuminate the nave with an enchanting light.

CASATORRA RACECOURSE

GPS : 42.618676, 9.440133

Tel : +33 (0)6 09 08 80 82

AN AUTHENTIC PLACE

In antiquity, the Romans and later the Etruscans were particularly fond of the eastern coast of the island. After the fall of the Roman Empire, looters threatened the territory. Then, barbarian and pirate attacks caused the population to migrate to the mountains. That is why the old village of Borgo is perched on a rocky promontory, overlooking the plain and the sea. On a clear day, the islands of the Tuscan archipelago can be seen on the horizon : the island of Elba, the island of Pianosa, and the island of Montecristo.

MUST-SEE

Parish Church of the Annunciation (L'Annunziata) - Village of Borgo

This imposing building located in the core of the village was built in the 17th century. It contains beautiful pieces of period furniture and works by the painter Giacomo GRANDI, of whom one of the paintings represents Sant'Appianu. The church has been classified as a historical monument since 1988.

LE DIAN'ARTE MUSEUM

The Dian'Arte Museum is located on the Marana's lagoon shoreline and houses the works of the contemporary painter and sculptor Gabriel Diana on nearly 4000 m². The Dian'Arte Museum is twinned with the Kaliningrad Regional Amber Museum located in Russia.

5992, Lido de la Marana

AN AUTHENTIC PLACE

LUCCIANA

According to the legend, the village of Lucciana owes its creation to the known hostility between the founder of Mariana, CAIUS MARIUS, and the builder of Aléria, LUCIUS SYLLA. However, it is easy to imagine that the Romans had occupied the nearby hills, for both security and economic reasons.

Like many villages in Corsica, Lucciana was built with fortifications.

Today, Lucciana is a peaceful and charming village which is now twinned with the Principality of Monaco in memory of Saint Devote.

MUST-SEE

Church of Saint-Michel - Village of Lucciana

Dating back to 1617, the Church of Saint-Michel has a very detailed interior decoration and possesses among its treasures a remarkable painting of Saint Devote painted by an Italian artist of the 18th century.

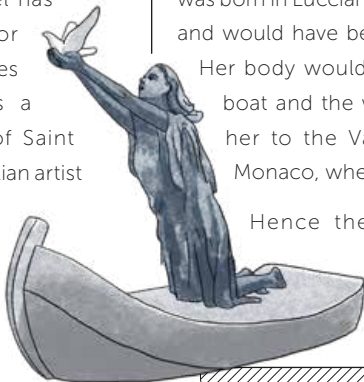

It is one of the four churches designed in the Corsican « Barochetto » style*.

THE LEGEND OF SAINT DEVOTA

The place is remembered for the virgin martyr, Saint Devota. According to the legend, she was born in Lucciana, in the hamlet of Querci, and would have been martyred in 303 A.D.

Her body would have been placed on a boat and the winds would have blown her to the Vallon des Gaumates, in Monaco, where she was buried.

Hence the strong link between Monaco and Lucciana, which have been twinned since 2009.

* Derived from the Roman architectural movement of the early 19th century.

MUST-SEE

Museum and archaeological site of Mariana

The archaeological museum of Mariana - Prince Rainier III of Monaco - is dedicated to the conservation and development of one of the most beautiful examples of Corsican heritage.

In 2012, the museum obtained the designation «Museum of France» and houses a collection of more than 10,000 objects.

To the south of the museum, you can find the archaeological site with ruins of the ancient city of Mariana, including those of the early Christian cathedral complex and the Romanesque church «**A Canonica**»

The Churches of the 12th century

The cathedral Santa Maria Assunta, consecrated in 1119, is now known as **A Canonica** and was at the time, the largest of the religious buildings in Corsica. The Romanesque cathedral is characterized by the simplicity of the volumes, the harmony of the proportions and the use of schist stone and marble taken directly from the Cap Corse.

300 m (~ 984 ft) to the west is the church of **San Parteu**. It was built by the same craftsmen as the Canonica on an older building dating from the 5th century. The ambition at the time was to turn Mariana into the religious and political centre of the island.

Musée du site archéologique de Mariana - Prince Rainier III de Monaco

AN AUTHENTIC PLACE

Olmo is a lovely and peaceful village where charm and authenticity reign. In this stunning setting, you can walk along the cobbled alleys - « ricciata » - of the village, discover its church, and its fountains, or follow the hiking trail that offers a breathtaking view from its observation point !

MUST-SEE

Church of Sainte Julitte and Saint Quilicus

According to various historical documents, the church was already built far from the village in the Middle Ages. In the first half of the 17th century, it was demolished and rebuilt in its current location. At that time, the church had a very basic structure, with a single nave, but was later enlarged in 1725 and once again in 1890; when the Cortenese painter Dominique PACCIONI undertook the painting of the magnificent frescoes that can still be admired today.

The Church of Sainte Julitte and Saint Quilicus has undergone a major restoration campaign. Today, it is open to the public, who can contemplate the splendid decorations that adorn the interior of this building.

The village of Monte is located at an altitude of about 630 metres (~ 2066ft) and **is characterized by the presence of archaeological sites from the Neolithic, the Bronze Age, and the Roman period**, as evidenced by the successive occupations of the Angiolasca site.

Today it is a small and dynamic commune with more than 600 inhabitants, including **many local artisans and producers**.

MUST-SEE

Church of Saint Sauveur (*Monte*)

The schist walled church was built in the first half of the 18th century and was restored in 1951 by the bricklayer Joseph Mattei, as indicated by an inscription in the cartouche on the interior of the main façade.

Chapel of Saints Côme and Damien (*of Divina*)

The Divina chapel dating from the 17th century was rebuilt by the villagers in the second half of the 19th century. Moreover, a bell tower and a stained-glass window were installed in May 2015.

The former church of the Immaculate Conception (*hamlet of Carognu*)

This ruined building may date from the 17th century.

CLIMBING ROUTE

Monte Sant'Angelo Silvareccio

This site is outstanding because of the size and quality of its climbing routes (there are currently about forty of them, all at least 30 m/ 98 ft long).

Level of practice : Advanced / Expert

Altitude at the base of the climbing routes : 1000 m (~ 13280 ft)

Duration of the approach walk : 15 minutes (uphill).

Accessibility : the base of climbing routes is not suitable for young children.

GPS COORDINATES

Climbing spot :

GPS : 42.46213, 9.40429

Car park :

GPS : 42.46242, 9.39816

VIGNALE

Just a few kilometres from the Casamozza roundabout, the small village of Vignale is perched on a rocky ridge and is surrounded by lush vegetation of oak, chestnut, and olive trees. That is why this environment is ideal for walks in the forest. Furthermore, it offers visitors clear water springs and a breathtaking view of the Golo valley.

The Corsican word «Vignale» is quite common and originally refers to a vineyard.

MUST-SEE

Parish Church of Saint Luxor

The patron saint of Vignale is Saint Luxor, a Roman soldier and bishop, who would have been martyred by Diocletian in 304. The baroque church has a massive square plan architecture, which covers the ruins of the ancient Romanesque chapel of San Luxorius.

Saint Luxor is celebrated every year in Vignale on August 21st.

AN AUTHENTIC PLACE

At an altitude of 600 metres (~ 1968 ft), the village is nestled between the Golo valley and the southern slope of the significant Stella massif, whose highest peak is Cima a U Spazzolu (1234 m ~ 4048 ft). Scolca is a small village of character with high old schist houses with flagstone roofs, where it is pleasant to stroll.

MUST-SEE

Parish Church of San Mamilianu

The wonderful 17th-century baroque parish church is dedicated to San Mamilianu and was restored a few years ago.

Inside, there are several works, such as a tabernacle from the 17th century made of painted wood and classified as a historical monument, a sculpture of the Virgin Mary dating from the 18th century, along with a painting by the painter NOVELLINI from Lento.

The church also has the particularity of having a picturesque bell tower not attached to the building, whose three bells ring loud and clear and can be heard from far away.

In addition to the **church of San Mamilianu**, Scolca boasts three other religious buildings: the chapel of San Bastianu in the centre of the village, the **chapel of San Roccu** in the place of the same name in the hamlet of Erbaggio, and the **chapel of San Simone**, whose remains are located in the village heights.

Campitello, which means «little field», is a village with a picturesque and authentic look. It was built in the shape of an amphitheatre, which gives it this imposing and majestic appearance.

The village is also known for its legends, especially the site of the Madonna, located below the hamlet of Panicale. The statue of the Madonna and its miraculous spring can be found there.

MUST-SEE

Parish church of Saint-Pierre (*hamlet of Panicale*)

The site of the Madonna

The story of this place begins in 1899, when the young Madeleine Parsi, who was only 15 years old and saw for the first time on a rock the Madonna (Virgin Mary) dressed in white and wrapped in a beautiful sky-blue veil. On 14 August of the same year, the drought lasted for several months, and villagers were praying to have water for their animals and crops.

And then miraculously, moisture appeared in the crevice of the rock where the Madonna had been standing a few days earlier. A man dug with his bare hands at the foot of the rock and water gushed out, giving rise to a spring that still flows today...

Bigorno undoubtedly embodies the authentic charm of our small Corsican villages. It is an ideal place for those who love peace and nature.

The village is steeped in history and bears witness to an ancient human presence, as evidenced by the remains of the Romanesque chapel of San Agostino. Those vestiges are located on the heights of the village and date from the beginning of the 13th century.

Bigorno was also the scene of battles between the Corsican army of Pascal Paoli and the French armies during the conquest of the island. The Bigorno pass is one of the important strategic military routes. It surrounds the Nebbio, a region which was at the time the defensive force of the island. Indeed, all the invading troops, foreign and/or allied, especially Roman, Genoese and French troops, landed in Saint-Florent. They usually passed through the mountains of Bigorno to go to Bastia.

While strolling through the core of the village, you can discover the heritage of Bigorno. In particular the parish church of Santa Maria Assunta, which is a religious building dedicated to the Virgin Mary, and one of the oldest churches in Corsica.

MUST-SEE

The Parish Church of Santa Maria Assunta

The Parish Church of Bigorno was built at the end of the 11th century and then remodelled in the 18th century. It contains the Chapel of Saint Augustin which has remarkable ornaments. The latter was completely rebuilt in 1869 and then extended with the construction of two side naves in 1875.

The commune extends its territory from the Tenda mountain range to the crests, whose highest summits are Monte Reghja di Pozzo (1469 m ≈ 4819 ft) and Monte Sant Anghjulu (1389 m ~ 4557 ft). Moreover, the village of Lento bears witness to an ancient human settlement with the Romanesque chapel of San Cervone dating from the 12th-13th century, and the chapel of San Cipriano.

Nowadays, Lento is a delightful little village with a well-preserved heritage and offers many outdoor activities as well as a stunning panoramic view over the Gulf of St-Florent !

MUST-SEE

Parish Church of Santa Maria Maddalena

The origins of Lento's Church of Santa Maria Maddalena probably date back to the 10th century. It was rebuilt at an unknown date and was first mentioned in 1580. During the 17th and 18th centuries, the building underwent changes that altered its original character, of which only a few vestiges remain.

Inside, you can admire the central vault with its monumental trompe-l'oeil decoration, dating from the 19th century and attributed to a native of Lento, Paul Mathieu NOVELLINI. He was one of the most talented Corsican painters of his generation.

Let yourself be transported by their delicious flavours and tastes.

Meeting with THE RAO FAMILY

Today, we meet Dominique and Fred who run the family farm founded by their grandparents in 1940 in the commune of Biguglia. For Dominique, who has been managing the farm since 2007, this « back to the land » was an obvious choice.

What do you like about this job Dominique ?

«I grew up in this environment, both my father and my grandfather farmed this land. I've always liked it... We use a lot of organic farming techniques to respect nature and to produce healthy vegetables. For instance, we adopt the fallow technique to allow the soil to rest and recover between harvests. There is no intensive farming here! We also have freedom! The freedom to create a beautiful plantation, to choose our work schedule, even if we have a lot of working hours (laughs). I must also emphasise that we work outside in nature and that's fantastic !»

The Rao family vegetables come from a sustainable farm and combine traditional and organic farming. They are marketed by Fred as « boxes of seasonal vegetables » on his online shop: **l'Ortu di Biguglia**

 Fromagère Corse

Corsica has a centuries-old pastoral tradition and a unique cheese-making skill !

Based in Lucciana, the SOCIÉTÉ FROMAGÈRE CORSE manufactures and matures CASANU cheeses following the ancestral cheese-making traditions of the island.

The company has always maintained a **trusting relationship with its 71 shepherds**. They raise **free-range Corsican sheep**, which ensures high-quality milk.

Indeed, we take great pride in making gourmet and tasty cheeses from this milk. By the way, these cheeses are **100% certified «latte corsu»**.

Discover all our cheeses :

- **CASANU cheese** matured in chestnut beer,
- **CASANU sheep's milk Tomme**,
- **CASANU «Casgiu di pecura»**,
- And let's not forget the **CASANU PDO Fresh Brocciu**, which can be eaten on its own, or in a savoury or sweet preparation such as the Fiadone; a great classic of Corsican cuisine. Here you can find the updated recipe served with citrus fruits.

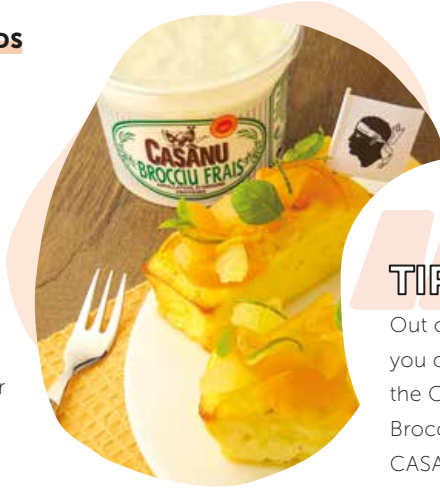

* 100 % Corsican milk

FIADONE WITH CASANU PDO* BROCCIU & CITRUS

INGREDIENTS FOR 4 GOURMANDS

- 500 g Casanu PDO Brocciu
- 4 eggs
- 300 g (1 1/2 cups) sugar
- 20 g (2 3/4 tbsps) cornflour
- 2 limes
- 2 Corsican clementines
- 1 lemon
- 1 vanilla pod
- 5 ml (1 tbs) orange blossom water
- 20 g (1 1/2 tbsps) butter
- A few baby basil leaves

TIP

Out of season, you can replace the CASANU PDO Brocciu with the CASANU fresh sheep cheese.

Add the cornflour, the orange blossom water and the zest of one lime, one clementine, and one lemon.

Grease your tins with butter, then pour in the mixture and bake for 30 minutes. Let your Fiadones cool down before turning them out of the tins.

Preheat the oven to 150°C (300°F). Drain the Brocciu. In a bowl, beat the eggs with 150 g (3/4 cup) of sugar and vanilla beans. Add the crumbled Brocciu and mix until you obtain a smooth paste.

Candy the zest or the peel of one lime and one clementine in a syrup made with 150 g (3/4 cup) of sugar and 15 cl (2/3 cup) of water.

Finally, arrange the Fiadones and decorate them with citrus pieces, candied zest, and baby basil leaves.

Bon Appetitu !

Bleu Comme Un Jardin what a delightful place!

A great discovery. The restaurant is located in a magnificent estate. Once you are inside, time stops. The dishes are extremely well prepared, some of them with Asian notes. It was like a taste explosion in the mouth!

Excellent value for money. We highly recommend it. It is well worth a visit.

Getting Around

The gateway to Corsica...

Marana-Golo is located near the international airport of Poretta and is only 18 km (~ 11 mi) from the port of Bastia. It is therefore at the crossroads of the main tourist destinations situated in the south and centre of the island.

The perfect location to visit Corsica in any season !

UN AMBIENTE DI QUALITÀ

Les carburants Ultra Tec distribués exclusivement dans les stations-service du Réseau ViTO ont été élaborés avec des additifs de dernière génération pour s'adapter aux modes de conduites sévères qu'imposent les routes de Corse (conduite citadine/route de montagne). L'utilisation des carburants Ultra Tec permet d'améliorer l'agrément de conduite, de réduire la consommation des véhicules de 3,1* mais aussi de réduire l'impact sur notre environnement (réduction des émissions de CO₂ de 3,1%*). Afin de maintenir un niveau élevé de qualité et parce que vous méritez le meilleur, les carburants Ultra Tec font régulièrement l'objet de contrôles et d'analyses en stations-service.

*essais réalisés par l'UTAC sur poids lourd selon le protocole de la fiche d'opérations standardisées TRA-EQ-119
